Commercial Grade Beer Cooler

The Brew Cave[®], commercial grade residential beer cooler, offers an abundance of cold storage space for beer, soda or any cold beverage. It can store over 30 cases of beer and 4 kegs, all while keeping them cold and ready to drink. The Brew Cave[®] fits perfectly in your basement or garage utilizing the coldest storage space possible. Everything needed for the ultimate kegerator is included; walk-in cooler, refrigeration, shelving and draft beer dispensing system. The only thing you need is the beer!

Brew Cave[®] kit includes:

Walk-in Cooler: 6'10" x 4'10" x 7'6" without a floor, lockable glass door with LED lights and heated glass

Shelving: Shelving fits the back and two side walls, 4 shelves for each wall

Refrigeration System: Pre-assembled outside refrigeration system, medium temperature, 1 phase, 1/2 horsepower, hermetic 208/230 volt, includes Copeland condensing unit. Other refrigeration systems are available.

Draft Beer Dispensing System: Aluminum CO2 tank (empty), keg coupler, double gauge CO2 regulator, chrome faucet head, faucet knob, 5" shank, beer line with connectors, air line with clamps, tap soother faucet cap, 6" wall mount drip tray (stainless steel with drain), drip tray dimensions: 11"H, 6"W, 4 3/4"D. Multiple faucet kits available.
