

BREW CAVE

BY U.S. COOLER

BREWERY COOLERS

U.S. Cooler has been a leading manufacturer of walk-in coolers & freezers since 1986. Our Brew Cave line of coolers provide exceptional quality and versatility that brewers require.

Features:

- 4" thick modular panels
- High R-value insulation
- Efficient refrigeration systems
- Large doors for forklifts available
- Over 20 metal colors optional

APPLICATIONS

Brewing Enclosures

Custom environmentally-controlled enclosures that can be used to facilitate manufacturing or brewing processes.

Growler Stations

Keep kegs cool so your customers can take home growlers of their favorite beer varieties.

Ingredient Storage

Store all your perishable brewing ingredients in a walk-in cooler.

Tap Rooms

Store dozens of kegs in a remote walk-in or under-counter cooler to supply your tap room with freshly brewed beer.

Warehouses

Store large quantities of kegs, cans, cases or bottles before shipment in a controlled environment. Tall ceilings up and large doors are available.
